

SRP ACCU-RATE

Modulating Control System

Patent pending

Superior Radiant Products is proud to be an “Innovator” with the award winning SRP Accu-Rate Modulating Control System for the Premier VS Vacuum System. The Accu-Rate provides unparalleled **individual zone modulation**, boasting the flexibility of variable rate burners resulting in unsurpassed comfort and energy efficiency.

Features & Benefits

Independent zone modulation between 60% and 100%	Fuel saving and comfort
1 Pump - 4 Zones or 2 Pumps - 2 Zones per pump	Economical
Optional VFD for pump to set initial vacuum	Extended pump life, low noise and vibrations
Programming does not require a PC, guided by on-board LCD panel	Convenient, easy and quick
Universal communication protocols*	Easy integration with building automation & interoperability
Data display on control module	Eliminates dedicated PC
Run time history, graphical representation**	Energy management

* License required
** Option available

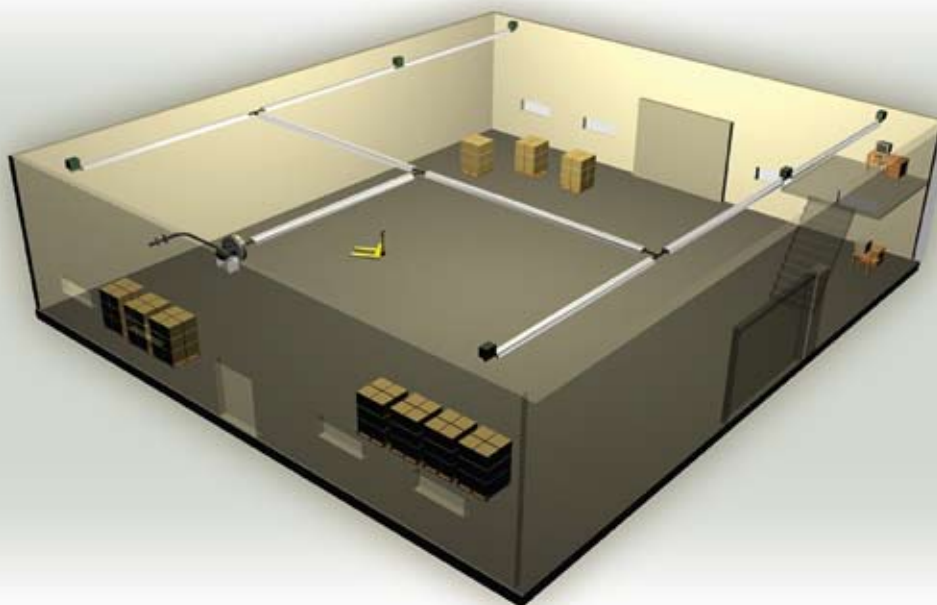

The PREMIER Vacuum Series

Superior Radiant Products Premier VS Vacuum Series Infrared Heating System provides the HVAC industry with a **“greener choice”**. The Premier Vacuum System provides improved comfort conditions with even heat distribution while reducing energy costs by up to 50% over conventional heating methods.

Features

- Custom engineered to precisely fit your building heat requirements.
- Vacuum vented for maximum safety and operating efficiency.
- Burner rates from 60,000 to 250,000 BTUH can fill any heating need.
- Unique, patented burner design results in:
 - precise firing rates
 - reduced noxious emissions
 - shorter tailpipe requirements
 - more burners in series
- Reflectors of superior design and performance with side, bottom and tilted shield options.
- “Run” indicator light.
- Couplings that outperform all others.
- Burner housing with no loose service doors.
- Filters are easily changed even with outside combustion air fitted.
- Vacuum pumps are corrosion resistant, heavy duty construction with several sizes available to best match the system.
- Decorative grills can be installed as an option.
- Warranty:
 - 3 years for controls
 - 7 years for exchanger
 - 10 years for burner
- Patented Technology
